

Recognised Approved Animal Feed Processing Schemes

*in respect of the **Must** Technical Requirement AL3.6*

of the Genesis GAP Standard V3.01

Details.

Technical Requirement AL3.6 states “All bought-in compound/ blended feed must be manufactured to the relevant standard laid down by legislation and approved under the Agricultural Industries Confederation (AIC) Universal Feed Assurance Scheme (UFAS) or other scheme formally recognised by Genesis Standards.”

The schemes formally recognized by Genesis Standards include:

- UFAS Compound Feeds
- GMP+ (PDV) B1
- QS
- Ovocom-BC-02 (MP)
- Tesco UK Feedmill Standard

Feed mills outside of the United Kingdom must have a Quality Management System subject to an external ISO third party audit.

Please check regularly for amendment.
